Education

Vellore institute of Technology Bhopal, India2022 - 2026• CGPA: 8.82(expected)KD Ambani Reliance Foundation School, India2021 - 2022

• CBSE (Class XII), Aggregate: 77.8%

KD Ambani Reliance Foundation School, India

CBSE (Class X), Aggregate: 90.8%

2019 - 2020

Skills

Programming & Frameworks: Python, Java, C++, JavaScript, Node. js, React, Express. js, TypeScript

Databases: MongoDB, PostgreSQL **Web Development**: HTML, CSS

Tools & Others: Git, Version Control Tools

Core Subjects: Operating System, Database Management System, Computer Networks, OOPs, Data Structures & Algorithms

Work Experience

Jio Platforms Limited

Data Analyst Intern [Application of Machine Learning for Operational Analytics]

(27.09.2024 - 29.11.2024)

- Developed and optimized five regression models (Linear, Ridge, Lasso, Random Forest, SVM), **reducing prediction error by 20%** and enhancing decision-making.
- Built a Random Forest-based feature selection framework, cutting model complexity by 30% and boosting performance.
- ullet Performed VIF analysis to eliminate features with VIF > 5, improving model stability and reducing multicollinearity.
- Applied advanced time series forecasting and correlation analysis, increasing trend prediction accuracy by 15%.
- Conducted residual analysis to fine-tune parameters, reducing overfitting and improving generalization by 15%.
- Created and analysed correlation matrices to refine features, improving model accuracy by 20%.

Projects

Voyage Vista / (HTML, CSS, JavaScript, React, Node.js, MongoDB)

- Built and deployed a full-stack travel platform (HTML, CSS, JavaScript, React, Node.js, MongoDB) with responsive UI.
- Enhanced real-time API performance by 40% using JavaScript Promises and async/await.
- Implemented a location-based search and filter system, improving search efficiency by 30%.
- Integrated an AI chatbot, automating 70% of inquiries and boosting user engagement.
- Deployed a review and rating system, increasing user interaction by 40%.

Traffic Genie: Smart Traffic Management

- Created a web-based application that monitors traffic footage and presents insights through clear, interactive statistical dashboards.
- Trained a custom YOLOv8 with OpenCV model to detect and classify vehicles.
- Designed a user-friendly dashboard using Flask and Chart.js to display traffic stats like vehicle count, type distribution.

Certifications

Coursera: - <u>AWS Cloud Practitioner Essentials</u>
 The Bits and Bytes of Computer Networking
 Crash Course on Python

• NPTEL Online Certifications: - Cloud Computing

Marketing Analytics

• **Udemy:** - Learn JAVA Programming – Beginner to Master

Additional Information

- Qualities: Project Management, Teamwork, Effective Communication
- Languages: English (fluent), Hindi (fluent), Gujarati (Native)
